

THE MACHINERY SPECIALIST

BUY, SELL & APPRAISE Individual Machines & Entire Plants

DOING BUSINESS WITH VULKAN IS AS EASY AS 1, 2, 3!

1. APPRAISALS

Whether you are seeking funding for growth or refinancing, selling your business to a partner or settling a divorce, in the manufacturing world you will periodically need an accurate appraisal of your assets. We are involved in the buying and selling of used machinery, from individual machines to complete plant liquidations and auctions. This professional activity in the machine and equipment marketplace gives us first-hand understanding of the dynamic economic swings in the industry which influence machinery sales. This marketplace insight, combined with our membership in the Machinery Dealers National Association, is your assurance of both professional and ethical business since we have Certified members of the Association of Machinery and Equipment (AMEA) on staff to provide accurate appraisals of the equipment. Our descriptions and terminology in our appraisals eliminate the confusing aspects and satisfy most banks and lending institutions requirements for machinery and equipment appraisals. Call or email VULKAN, the Machinery Specialists the next time you need an accurate and professional appraisal.

2. AUCTIONS/LIQUIDATIONS

If you are trying to liquidate a large quantity of machinery and equipment at once, an auction can be the fastest and best way to realize the most profit for your assets.

We have had tremendous success working with Myron Bowling Auctioneers on auctions and plant liquidations, and consider their company to be the best auction firm for manufacturing equipment in the country. In the past 30 years, Myron Bowling has conducted almost 2000 auctions of manufacturing equipment in the U.S., Mexico and Canada.

In the event that a liquidation of assets is needed, we can serve you in nearly any way you choose, such as purchasing all the assets and real estate for auction purposes, conducting a guaranteed return or a commission auction sale, or offering your assets for sale in a long-term liquidation. We are willing to structure the deal to suit your needs in a manner that is acceptable to all parties. We pay top dollar for your assets, and we pay generous referral fees for successful leads. Call or email VULKAN, the Machinery Specialists today in complete confidentiality to put our experience in asset liquidations to work for you!
